December 12, 1988

Mr. Marvin Glotzbach
District Geologist
Kansas Department of Health and Environment
Northeast District
808 W. 24th St.
Lawrence, KS 66046-4417

Dear Mr. Glotzbach:

In reference to our abandoned underground storage tanks, we have contacted the Layne Western Company to install a monitoring well for us the week of December 19, as well as talk to Mr. Don Miller of Langston Laboratory, who would propose to do the testing as requested. In order to handle this properly, I would request from you a specific list from the state or reference to a list as published as to what would be required and identified per your letter. We would propose to not test until this listing has been received by us and we will respond accordingly.

Sincerely,

Arthur G. Franke
